Product information and technical specifications

MirrorGuard is a range of toughened, highly reflective glass panels for interior applications, kitchen splashbacks or wall cladding.

MirrorGuard is compliant to Australian Glass Standards.

MirrorGuard is available in short lead times, similar to that of our other mirrored and back painted glass products.

- **MirrorGuard** can be used as kitchen splashbacks.
- **MirrorGuard** provides a range of tints designed to meet the needs of today's interiors.
- **MirrorGuard** can be glazed using standard fittings, framing and sealants.
- **MirrorGuard** is non-porous, easily maintained and cleaned.
- **MirrorGuard** can be manufactured as Grade A safety glass (AS/NZS2208) when toughened.
